北伊拉克流動診所事工

鄺明遠 (藥劑師)

天鄰基金會
HIS FOUNDATION

洗牙服務
Dental cleaning

針灸治療
Acupunture treatment

在社區中心作臨時診所
A community center was used as temporary clinic

由於天鄰基金會以手術隊為事工主要骨幹, 我身為藥劑師，在其中沒有太多參與的機會, 但是在去年十月第一次參與伊拉克難民的工作後, 我發現原來在不同難民營中的流動診所甚有發展的潛力。由於流動診所能在近距離中，接觸許多不同年齡的人, 因此有機會在多方面服事他們;令整個事工可以擴寬服務範圍。難民營的事工在我第二次參與時，已增加了針灸、物理治療及贈送老花閱讀眼鏡的服務。加上Habibi-International 已經開展了當地牙醫助理的訓練, 我們更可以提供洗牙服務。這種多方位的做法讓事工更趨向多元化及全人化, 若再加上其他例如健康教育, 青少年及兒童事工, 創傷後輔導等服事，我相信有更多的非醫療專業的志願者都可以找到能事奉的地方，更能使用他們獨有的恩賜。這事工亦是栽培及訓練當地人的渠道，盼望更多基督徒把握機會參與，將這工作發揚光大.

North Iraq Mobile clinic Ministry
Andrew Kwong (pharmacist)

As the core ministry of HIS Foundation is in providing surgeries, being a pharmacist, my role with the surgical team is very limited. However, after my first short-term mission with the Northern Iraq mission in October last year, I found out that there is potential for my profession in working with the mobile clinics that serve in different refugee camps. As we conduct the clinics at various sites, we have the opportunities to meet people of different age groups and can serve their diverse needs. The vision of ministry has been expanding. During my second trip, in addition to doing the traditional medical clinic, we added acupuncture, physical therapy, and reading glasses donation. With the help of the dental assistants (trained by Habibi-International), we were also able to provide dental cleaning services. This multi-service approach makes the ministry more diversified and holistic. I can envision other serves would be very well received such as health education, teenage and children's ministry, and counseling services for trauma victims. Many non-medical volunteers with different talents can easily find their roles in this ministry. The ministry is also an excellent channel to train the locals to empower them and help them grow as well.

It is my hope that more Christian volunteers will take the opportunity to serve and develop the multi-facet ministry.
